

Flowery Field Primary School

PE and Sport Premium 2017-18

The Government provides additional funding for physical education (PE) and sport in schools. This funding is to be used to improve the quality and breadth of PE and sport provision.

We have been allocated £16,000 + £10.00 per child for each pupil who was on role in January 2017 in years 1 to 6. This amounts to £20739

With this funding our main aims are:

- To keep improving the quality of teaching and learning in school.
- To increase the number of children participating in extra-curricular sports clubs by providing a wide range of activities.
- To improve the success of sports teams representing Flowery Field in local competitions
- To promote the importance of leading healthy a lifestyle – Change 4 Life programme.
- To provide further opportunities for children to learn to swim at least 25 metres.

How the funding will be used to help us achieve our aims:

- Through our membership with the Hyde Schools Sports Partnership we will provide a range of opportunities for children to participate in competitions.

A wide range for training opportunities will be available to staff to develop skills in teaching high quality PE lessons.

- Qualified sports and dance coaches to provide a wide range of before and after school clubs that the children have identified as areas of interest.
- Professional development opportunities for staff to further improve their skills in order to enable them to provide an outstanding level of PE provision in lessons.
- Training for lunchtime supervisors to deliver playground activities.

How our 2016/2017 funding made a difference to our pupils.

The Sports Funding provided for the 2016/2017 academic year has enabled us to continue with our membership of the local School Sports Partnership and has enabled our children to have access to a wide range of interschool competitions in a variety of sports. In addition to this, all ks2 year groups have participated in a multi skills sessions held at a local secondary school which enabled children to practice and develop their movement and equipment control skills.

Support was purchased from “City in the community” to provide additional lunchtime and after school sporting opportunities.

Children were selected to attend additional sports events at Lancashire Cricket Club and at Manchester City. These children attained much higher in many aspects of the PE curriculum. Funding provided transport, including a mini bus, to venues with a larger space to practise for events and take part in a wider range of activities. This will further develop our ability to compete confidently in a wide range of sports.

The School Sports Partnership has also provided opportunities for staff professional development as well as PE leader meetings to ensure leaders are informed of up to date initiatives. We have been able to purchase new equipment which has been essential for practising for inter school competitions that we have entered. As a result of this we have performed much better overall in the competitions as evidenced by our growing trophy display.

Our funding has enabled us to use a variety of coaches to provide range of after school clubs. These have been free to all families, which has helped to engage those who may have not previously been able to participate in these activities due to family circumstances. We have offered a much wider range of sports, dance and cheerleading this year based on children’s requests, resulting in a higher number of children participating in extracurricular activities. We have offered a free Saturday morning sports club that has proved popular with a number of families who hadn’t accessed after school provision.

This funding also provided opportunities for children to experience adventurous pursuits such as climbing and abseiling. Funding also provided cycle-safety training to promote an active life style.

The Change 4 Life programme proved successful in improving self-esteem, confidence and participation in physical activity. Some of these children have become young leaders, attain higher in PE lessons and have also represented the school in interschool competitions. As a result of our provision and use of the sports funding our attainment continues to improve and we were awarded the School Sports Games silver award for the academic year for improved attainment in PE and school sport.
